

BREATHE

by Milliken™

A collection of eco-elegant sustainable fabrics

Natural Fiber Fabrics

The ultimate natural solution for the discerning consumer.

Breathe by Milliken™ natural fiber fabrics, featuring cleanable cottons and cotton-linen blends, are unlike anything you've ever seen – or felt. Made from all-natural fibers, this innovative collection uses a remarkable plant-based repellent to withstand the things your daily life throws at them.

Milliken knows that materials matter. More people than ever before are concerned with what things are made of and where they come from. Breathe cotton fabrics are the culmination of years of science and our commitment to using minimal chemistry and natural solutions to achieve desired results.

From kids spilling to dogs jumping, you can breathe easy because we've created an eco-elegant, earth-friendly product that features the durability and stain-resistance you need for everyday living.

THE NATURAL FIBERS CONSUMERS
DESIRE PAIRED WITH THE PLANT-BASED
PROTECTION THEY NEED

Strong and Durable

Tested to withstand at least twice the industry standard in abrasion resistance.

Repels & Cleans Everyday Stains

The repellency is built in, not sprayed on, so Breathe fabrics can be spot cleaned or machine washed and the performance remains intact.

Sustainably Designed

A fiber-forward design with natural elements including one of the only fluorine-free, cleanable cottons on the market.

Natural Performance

Meets industry standards for fire retardance, stain repellency and durability without any added chemicals, like fluorine and formaldehyde.

Responsibly Manufactured and Sourced

Milliken is committed to transparency, health, safety, quality and sustainability allowing us to focus on customers, associates and communities first.

UL GREENGUARD® Gold, Third Party Certified

Fabrics are UL GREENGUARD® Gold certified, one of the world's most rigorous environmental standards, thus improving air quality.
